**ACA: What Tax Preparers Need to Know**
Per TaxWise report of 3.3 million VITA/TCE returns:
- Average SRP Payment of $131
- 405K total exemptions claimed (multiple/return)
- Some SRP returns qualified for exemptions:
  - Income below filing threshold
  - Dependent Returns

Per TaxWise report of 3.3 million VITA/TCE returns:
• 2.74% of returns included Form 8962
• 2014 was the first year of APTC reconciliation:
  ➢ Additional net credit average $664
  ➢ Average excess APTC repayment $586
• IRS granted administrative relief for:
  • Erroneous 1095-A data
  • Waiver of penalties related to repayment of excess APTC

Note: In July-August 2015, the IRS sent reminder notices to taxpayers who received Form 1095-A reminding them of the requirement to file a 2014 Form 1040/8962 to reconcile Advance Payments of the PTC. This is important to remain eligible for APTC in 2016.
What’s New for TY 2015
What’s New in TY 2015

• New VITA/TCE scope
  – The premium tax credit is now an advanced topic. Complex premium tax credit situations (shared policy allocations and alternative year of marriage calculation) are out of scope.

• Anticipated TaxWise changes
  – Revised ACA Worksheet
  – New ACA affordability exemption worksheet

• New Reporting Statements: Forms 1095-B and 1095-C
  – Entities that issue health insurance coverage and large employers are required to provide enrollees and the IRS with tax forms that report monthly coverage information.
  – New, so errors likely
What’s New in TY 2015

• Coverage Exemptions - Updates
  – 2014 “Transitional” exemptions *no longer in effect*
    o Gap in coverage before May 1
    o Employer coverage with coverage year starting in 2013
    o Limited-benefit Medicaid (still available for some types of Medicaid coverage but requires Marketplace application for exemption)
  – New exemption
    o Months not covered due to birth, adoption or death during the year

• 2015 Shared Responsibility Payment
  – The higher of: $325/adult or 2% of income above filing threshold.*
    *Flat amount capped at $975; percentage of income capped at national average LCBP

Visit http://www.healthcare.gov/ or call 1-800-318-2596 for more information on health insurance options and assistance.

If advance payments of the premium tax credit were paid on your behalf to help pay your health insurance premiums, you should report life changes, such as, income, marital status or family size changes, to your Marketplace. Reporting changes will help to make sure you are getting the proper amount of advance payments.

To be Completed by a Certified Volunteer Preparer (Use Publication 4012 and check the appropriate box(es) indicating Minimum Essential Coverage (MEC) for everyone listed on the return.)

ACA: What Tax Preparers Need to Know
Minimum Essential Coverage (MEC)
Minimum Essential Coverage (MEC)

QUALIFIES AS MEC

Employer sponsored coverage
- Employee coverage
- COBRA
- Retiree coverage

Individual health insurance
- Purchased from a health insurance company
- Purchased through the Marketplace
- Provided through a student health plan

Government-sponsored plans
- Medicare
- Most Medicaid
- CHIP
- Most TRICARE
- Most VA
- State high-risk insurance pools
- Peace Corps
- Refugee Medical Assistance

LIMITED BENEFITS THAT ARE NOT MEC

- Single-benefit coverage (e.g., dental-only or vision-only plans)
- Accident or disability insurance
- Workers’ compensation
- AmeriCorps/AfterCorps coverage
- Medicaid coverage that does not provide comprehensive benefits

Remember! Coverage for one day of the month is enough to fulfill the coverage requirement for the entire month
FAQs on Minimum Essential Coverage (MEC)

**Who does the coverage requirement apply to?**

- The taxpayer, spouse and anyone who is or could be claimed on the tax return as a dependent.

**How do I know if coverage is MEC?**

- Most coverage is MEC and reported on Form 1095 series (A,B,C)
- Consult Form 8965 Instructions for detailed table

**How do I verify that a person was covered?**

- Taxpayers may have evidence of coverage (e.g. insurance card or Form 1095).
- Tax preparers are not required to see evidence of coverage to verify that each individual was insured. The interview is often sufficient.
- Taxpayers are responsible for accuracy of information reported on the return (e.g. return signed under penalty of perjury).
- Since 1095-B or 1095-C are new forms, they may be prone to error.
Forms 1095-A/B/C

**Form 1095-A**
- Issued by the Marketplace to people who enrolled in Marketplace coverage.
- Necessary to prepare Form 8962, which is required for people who received Advance Premium Tax Credits
- Corrections? Call the Marketplace that issued the form

**Form 1095-B**
- Issued by Medicaid, Medicare, insurers, and others who offer coverage.
- Individuals with coverage should receive this form.
- Useful in determining the months a person had coverage.

**Form 1095-C**
- Issued only by large employers (employers with 50 or more full-time EEs)
- Useful in determining the months a person had coverage or an offer of coverage and the cost of the offer of coverage. (May be helpful to calculate the affordability exemption.)
- Serves a dual purpose in (1) confirming that a taxpayer had coverage and (2) helping IRS determine whether an employer owes a shared responsibility payment for failure to offer affordable coverage.
One of these sections will be completed

Each covered family member will be listed

Either the SSN or date of birth will be listed (no need to validate its accuracy)

Full year/months covered
**Form 1095-C**

**Employer-Provided Health Insurance Offer and Coverage**

- **Part I** Employee
  - Name of employee
  - Social security number (SSN)
  - Name of employer
  - Employer identification number (EIN)
  - Street address (including apartment no.)
  - State or province
  - Country and ZIP or foreign postal code

- **Part II** Employee Offer and Coverage
  - Plan Start Month (Enter 2-digit number):

- **Part III** Covered Individuals
  - Name of covered individual(s)
  - SSN
  - Months of Coverage

---

**Cost of an offer of coverage** – Can be used to determine whether the employee is eligible for an affordability exemption if they did not accept coverage.

---

Each covered family member will be listed

Either the SSN or date of birth will be listed (no need to validate its accuracy)

Full year/months covered

ACA: What Tax Preparers Need to Know
Handling Missing or Incorrect 1095s

Form 1095-A

• Necessary to prepare Form 8962. Taxpayers receiving APTC are required to file.

• Get corrections before filing. Sometimes these are given over the phone.

• Note: If the SLCSP is missing or incorrect, use the SLCSP tool on healthcare.gov to find the correct plan cost. Print out the result page for the taxpayer’s records. Enter the correct SLCSP in TaxWise.

Form 1095-B and 1095-C

• If a person is insured but does not receive either 1095-B or -C, he or she should ask the insurance issuer whether one will be sent. If not, prepare the return based on client’s interview and attestation.

• If a person received the form but doesn’t bring it to the tax site, prepare the return based on client’s interview and attestation. The client should be aware that the form may be needed in case of audit.

• If someone received the form and it is incorrect, contact the issuer for a correction. File the return based on the client’s attestation. The client is not required to wait for a correction. The IRS plans to match data after filing, so pursuing a correction is important.

- The ACA Worksheet is changing – details to follow
- **Note:**
  - Form 13614-C asks the preparer to mark *months with coverage* or *months with exemption*.
  - Like last year, TaxWise is likely to ask for *months with penalty*.  

ACA: What Tax Preparers Need to Know
Exemptions
Exemptions from the Coverage Requirement

Two Types of Exemptions:

- **All exemptions must be claimed at tax filing on Form 8965**

**Exemptions Granted by the Marketplace**
- Part I of Form 8965
- Must apply by mail for the exemption through the Marketplace
- Need supporting documentation
- Lengthy process

**Exemptions Granted by the IRS**
- Part II and III of Form 8965
- Can claim these exemptions directly on Form 8965 at tax time
- No supporting documentation needed
- Immediate
Types of IRS Household Exemptions:

*Exemption covers the entire household for the entire year*

- Household income below filing threshold
- Gross income (not including income of a dependent with a filing requirement) is below the filing threshold

**Advantage:** Checking one of these boxes can exempt everyone on the tax return for every month uninsured. (No need to also complete Part III for individual exemptions)
Coverage Exemptions for the Household

Household income for Line 7a (household income below filing threshold) and ISRP

- **Adjusted Gross Income (AGI)**
  - Form 1040, Line 37

- **Tax-Exempt Interest**
  - Form 1040, Line 8b

- **Excluded Foreign Income**
  - Form 2555, Lines 45, 50

Include dependent income **only** if that dependent has a tax-filing requirement.

Gross income for Line 7b (gross income below the filing threshold)

All income received in the form of money, goods, property and services that is not exempt from tax, including any income sources outside the U.S. or from the sale of your main home (even if you can exclude part or all of it)

- Include only the taxable portion of Social Security benefits
- Include income or gains but not expenses or losses from Schedules C, D and F
- **Do not include income of any dependents**
Coverage Exemptions for the Household

Form 8965

Part II: Coverage Exemptions for Your Household Claimed on Your Return

Filing threshold
Household income from ACA worksheet
Estimated gross income entered in this return

7a Are you claiming an exemption because your household income is below the filing threshold?
    ☐ Yes    ☐ No

7b Are you claiming a hardship exemption because your gross income is below the filing threshold?
    ☐ Yes    ☐ No

For these amount to be correct, all income must be entered and the ACA Worksheet must be completed. Make sure to enter the income of a dependent ONLY IF he or she has a filing requirement. See Pub 4012 for dependent filing requirements.

US

7 Household income
   Enter the total modified AGI for any dependent included in this return who is required to file a tax return - F3 if zero

8 Filing threshold

9 Subtract line 8 from line 7

10 Multiply line 9 by 1%

11 Is line 10 more than $285?
   ☐ Yes. Multiply line 10 by the number of months for which line 1 is more than zero.
   ☐ No. Amount calculated based on the flat dollar amount worksheet

12 Divide line 11 by 12

13 Multiply line 6 by $204

14 Smaller of line 12 or line 13

ACA: What Tax Preparers Need to Know
IRS Individual Exemptions:

*Use Part III to claim exemptions for individual household members*

- Can be claimed for monthly or for entire year
- A person can be eligible for multiple exemptions during the year, but only report one exemption per month.

**Note:** Enter an exemption type (A-F) if eligible for IRS exemption
| **Insurance is considered unaffordable** – Minimum premium would have cost more than 8.05% of household income | A |
| **Short coverage gap** – Uninsured for less than 3 consecutive months | B |
| **Citizens living abroad and certain noncitizens** – Includes people who are not lawfully present | C |
| **Members of a health care sharing ministry** | D |
| **Members of an Indian tribe or eligible for services through an Indian health care provider or the Indian Health Service** | E |
| **Incarceration** | F |
| **Aggregate self-only coverage is considered unaffordable** – Total cost of two or more family members’ aggregate self-only coverage is more than 8.05% of household income | G |
| **Resident of a state that did not expand Medicaid** | H |
| **Member of the tax household born, adopted or died** | |
IRS Exemptions: Medicaid Coverage Gap

Resident of a state that did not expand Medicaid

- Individuals who resided at any time during 2015 in a state that did not expand Medicaid, and
- Had household income below 138% FPL

<table>

Applies to people who lived at any time in 2015 in one of the following states:

- Alabama
- Alaska
- Florida
- Georgia
- Idaho
- Indiana
- Kansas
- Louisiana
- Maine
- Mississippi
- Missouri
- Montana
- Nebraska
- North Carolina
- Oklahoma
- South Carolina
- South Dakota
- Tennessee
- Texas
- Utah
- Virginia
- Wisconsin
- Wyoming
Example: Medicaid Coverage Gap Exemption

Rashid, Miriam and Leila

- Rashid was uninsured for all of 2015
- His wife, Miriam, had insurance all year through her employer
- Leila was born in November and was covered by CHIP
- Household income for 2015: $25,000 (129% FPL)
- They live in Virginia (a state that did not expand Medicaid)

Does Rashid qualify for an exemption?

✓ YES, Rashid’s household income is below 138% FPL and in 2015, he lived in a non-expansion state
- Rashid qualifies for this exemption for the entire year even if he had other insurance options, such as coverage through his wife’s employer or insurance in the Marketplace with PTCs
- Rashid also qualifies for the entire year, even if he only lived in VA for one month before moving to Maryland (a state that did expand Medicaid)
IRS Exemptions: Short Coverage Gap

**Short coverage gap**

- **A coverage gap of less than 3 months (so, 1 or 2 months).** If the coverage gap is 3 months or longer, none of the months in the gap qualify for exemption.

  **Example:** If Bob is uninsured January 1 to March 31, the exemption does not apply to any of those months because the gap is not less than 3 months.

- But remember that a person is considered to have coverage for the entire month if they have coverage for one day in the month.

  **Example 2:** If Bob is uninsured January 20 to April 15, the exemption does apply. He is considered insured in January and April so there are only 2 months in the gap.

- **There is a look-back but no look-forward.** Consecutive uninsured months at the end of 2014 count toward a gap at the start of 2015; uninsured months in 2016 do not.

  **Example 3:** If Bob is uninsured Dec 2014, Jan 2015 and Feb 2015, he doesn’t qualify for this exemption because the gap is not less than 3 months.

  **Tip!** If someone was uninsured in January 2015, and appears eligible for this exemption, ask whether they had coverage in December 2014.

  **Example 4:** If Bob is uninsured starting in December 2015 and is still uninsured when you prepare his taxes in March 2016, he can claim this exemption for Dec.
Insurance is considered unaffordable – Lowest-cost premium would have cost more than 8.05% of household income

Start by determining household income

Start by determining household income

Adjusted Gross Income (AGI)

Line 37
IRS Form 1040

Tax-Exempt Interest

Line 8b
IRS Form 1040

Excluded Foreign Income

Lines 45 and 50
IRS Form 2555

Any pre-tax deduction for ESI premiums

Then determine the lowest-cost premium available to each person

If the person is eligible for employer-sponsored insurance, use that cost (only).

If eligible for employer-sponsored insurance:

• As an employee: the lowest-cost self-only plan costs more than 8.05% of household income (Code A)
• As a member of the employee’s family: the lowest-cost family plan costs more than 8.05% of household income (Code A)

If not eligible for an offer of employer-sponsored insurance:

• Lowest cost bronze plan (after PTCs) for all non-exempt members of the taxpayer’s family costs more than 8.05% of household income (Code A)
For a Person Eligible for Employer-Sponsored Insurance

- It’s often difficult to find the cost of the applicable employer plan.
- If the taxpayer has a 1095-C, line 15 will contain the lowest cost plan for the employee. The form will not state the lowest-cost family plan.

If there is no 1095-C, the employee may have to ask his or her Human Resources Dept for the correct 2015 plan cost.

ACA: What Tax Preparers Need to Know
IRS Exemptions: Affordability Exemption

The worksheet requires careful reading!

Line 1 requires the preparer to use an online tool to find the cost of the lowest-cost bronze plan (LCBP) available to members of the household. Find the LCBP that includes everyone claimed on the tax return that is NOT:

- Eligible for employer-sponsored coverage, OR
- Eligible for exemption

Note: This means that you will include household members that have Medicaid or Medicare coverage!

Federal marketplace LCBP tool
https://www.healthcare.gov/taxes/tools/bronze/
Line 10 requires the preparer find the cost of the second lowest-cost silver plan (SLCSP) available to members of the household. Find the SLCSP that includes everyone claimed on the tax return that is NOT:

- Eligible for other MEC (including Medicaid, Medicare or employer-sponsored coverage), OR
- Eligible for exemption

Federal marketplace SLCSP tool

The worksheet requires careful reading!
The worksheet requires careful reading!

TIP!
Everything after Line 1 is designed to calculate the premium tax credit the individual may have been eligible for, i.e., to reduce the cost of coverage.

If the LCBP is already less than 8.05% of household income, STOP. The taxpayer is not eligible for this exemption.

Federal marketplace LCBP tool
https://www.healthcare.gov/taxes/tools/bronze/
Example: Household income for a taxpayer is $25,000. He has no offer of employer-sponsored coverage and is seeking a Marketplace exemption. He can only claim the exemption for unaffordability if the cost of coverage is greater than 8.05% of his income.

\[
\text{Income \times 0.0805} = $2,013
\]

On Line 1 of the worksheet, he calculates a LCBP cost of $100 per month, or $1,200 per year.

STOP – he cannot claim this exemption because his plan cost is already less than 8.05% of income, even before accounting for the additional discount he may get from the premium tax credit.

Federal marketplace LCBP tool
https://www.healthcare.gov/taxes/tools/bronze/
Aggregate self-only coverage is considered unaffordable – Total cost of two or more family members’ aggregate self-only coverage is more than 8.05% of household income

Household Income: $45,000

Premium cost for Joan only: $2,100/year (No offer of family coverage) 4.6% of income

Premium cost for Bob only: $2,400/year (Offer of family coverage that exceeds 8.05% of income) 5.3% of income

Aggregate cost: $2,100 + $2,400 = $4,500 10% of income

Therefore, Joan and Bob are eligible for a Code G exemption for the year.
Citizens living abroad and certain noncitizens

This exemption applies to:

- Individuals who are not U.S. citizens, nationals or lawfully present (i.e., undocumented immigrants)
- Some other citizens living outside of the U.S., residents of territories, and 1040NR (or 1040NR-EZ) filers.

How do I identify someone who is eligible for this exemption?

- A person is eligible for PTC (and therefore NOT eligible for this exemption) if the person has an immigration status listed here: https://www.healthcare.gov/immigrants/immigration-status/
- If the person has an immigration status that is not listed, they are eligible for this exemption.
- For the most part, a person with an ITIN is eligible for this exemption. But there are exceptions:
  - A person is NOT eligible for this exemption if they have an ITIN and a status that allows them to purchase coverage in the Marketplace, such as the spouse of a student visa holder.
  - A person IS eligible for this exemption if they have a lawful social security number but not an eligible immigration status. So, a person who is a Deferred Action for Childhood Arrivals (DACA) grantee (“Dreamer”) can claim the exemption, despite having an SSN.
Example: Certain Noncitizens

Example
Fatima has an ITIN and files taxes but she is not lawfully present in the U.S. Her husband and daughter are U.S. citizens

Alternatively, Fatima could claim the exemption if:
- Fatima is a nonresident living abroad but elects to be treated as a U.S. resident for the purpose of joint filing.
- Fatima has a social security number but is a Deferred Action for Childhood Arrivals (DACA) grantee (“Dreamer”).
The coverage requirement applies for full months alive or adopted. This exemption covers the other months of the year, when coverage is not required (e.g. before birth or after death).

**Example 1:** A child is born May 14. Coverage is required June - December. The exemption can be used January – May.

**Example 2:** A person dies May 14. Coverage is required January – April. The exemption can be used May – December.

**Tip:** If the entire tax family had coverage all year, you can still consider the born, died or adopted person to have full-year coverage. In examples 1 and 2 above, if everyone else on the return had coverage all year, you can still check the box on Line 61.

If you can’t check the box, and need to indicate exemption or penalty by individual, use this exemption.
Example: Born, Adopted or Died

Rashid, Miriam and Leila

• Rashid and Miriam had insurance for all of 2015 through Miriam’s employer.
• Leila was born in November and was added to the coverage.
• Rashid and Miriam can check the box on Line 61 for full-year coverage, even though Leila only had coverage in November and December.

Alternatively:

• Rashid and Miriam were uninsured for all of 2015.
• Leila was born in November and was also uninsured.
• Assuming no household exemption applies, use Code H for Leila for January through November. Use the short coverage gap exemption code “B” for December.
The Last Resort…Marketplace Exemptions

- If no other IRS exemption applies, consider helping a client apply for a Marketplace exemption
- Application must be mailed and takes time for processing
- If the application has been mailed but not processed, write “pending” in Part 1 of Form 8965.
- Useful for:
  - Religious conscience exemption (available only through the Marketplace)
  - Hardship exemptions

Should I Make a Referral to Complete a Hardship Application?

- A referral to a health care assister is one option but it causes additional delay
- Consider helping the client complete the hardship application at your tax site
- No special health care knowledge is needed. Application requires:
  - Name and contact info
  - Dependents
  - Documentation of exemption
  - Taxpayer’s signature

When to Apply

Up to 3 years after the month of the hardship (but documentation is required in most circumstances so earlier is better)
Applying for a Hardship Exemption

- For exemptions that must be approved by the Marketplace, the FFM is processing exemptions for all states except Connecticut.

Shared Responsibility Payment
Calculate Shared Responsibility Payment for a taxpayer, spouse or dependent is uninsured and is not eligible for an exemption (e.g. income below the filing threshold).

† The payment calculation is for a person who is uninsured all year. If a person is uninsured for only some months, prorate the payment. *Capped at the national average premium of a bronze level plan purchased through a Marketplace.
Example: Joe (Single)

Income: $17,000  
Filing Status: Single  
Adults: 1  
Children: 0

2015 Tax Filing Threshold: $10,300
Months Uninsured: 12

Payment Calculation:
1. $17,000 - $10,300 = $6,700
   \[ \times 2\% \]
   vs. $134
2. $325 \times 1 \text{ adult} = \boxed{$325$}

Note: In tax year 2014, Joe would have paid only $95. If everything remains the same, in 2016 he would pay $695.

ACA: What Tax Preparers Need to Know
Example: Ruiz Family

Income: $39,500
Filing Status: MFJ
Adults: 2 (both uninsured)
Children: 2 (both uninsured)
2015 Tax Filing Threshold: $20,600

1. $39,500 - $20,600 = $18,900 x 2% = $378

2. $325 x 2 adult + $162.50 x 2 children = $975

ACA: What Tax Preparers Need to Know
What do I tell a client that pays the SRP?

• **Make the taxpayer aware of the payment.** It was easy to miss in TY 2014 but it increases substantially this year and next.

• **Refer** to a health care assister, healthcare.gov or your state-based Marketplace. If the taxpayer gets health care at a free clinic, clinic staff can likely help with enrollment.
  – Medicaid and CHIP are always open for enrollment
  – After January 31, a person can only purchase private health insurance in certain circumstances, such as:
    ▪ Getting married
    ▪ Having a baby
    ▪ Losing other insurance coverage
    ▪ Moving
